Item 7 - Other reasons for holding abandonment: The applicant, in a letter to the Office mailed 10/27/04, requested a new office action and a reset statutory period for reply based on an error on PTO-892, which the applicant contends caused confusion as to which prior art was being applied. However, the office action mailed 9/22/04 specifically lists the prior art that is applied in rejecting the claims including the name of the inventor and the patent number associated with the prior art reference. Throughout the rejection of the claims, the examiner refers only to "Baker." As such, it should have been clear that the examiner was relying on Baker to meet the limitations of the claimed invention. Furthermore, the examiner clealry provides the patent number of the prior art to Baker at the outset of the rejection. The reply filed 10/27/04 does not constitute a proper reply to the office action mailed 9/22/04 and given that the statutory period for reply has expired, the office action is now abandoned for failure to file a proper reply.
